Dear Sirs,

## **DECLARATION OF NEW CHANNEL LIMITS AND DEPTHS FOR PINTU GEDONG SOUTH CHANNEL PORT KLANG**

Please be advised that the capital dredging project undertaken by the Government at Pintu Gedong South Channel has been successfully completed.

2. We are pleased to declare that effective 16 January 2010, the new depths at the said area are as follows:

<b>Area</b>	<b>Previous minimum depth</b>	<b>Current declared depth</b>	<b>Current dredged depth</b>
South Pintu Gedong Channel	15.0 metres	16.5 metres	16.5 metres

3. In addition, the stretch of the channel between the entrance Pintu Gedong buoy and the Buas-Buas buoy has been widened from 360 metres to 500 metres. However the existing Tg. Mahang Leading Lights which mark the centre line of the 'old' channel will continue to be operational. Works are currently ongoing to relocate the Leading Lights to mark the centreline of the 'new' channel and will be completed by March 2010.

4. With the widening of the South Channel, restrictions on 2 way traffic for large vessels as contained in PKA Notice 02/2000 are hereby lifted.

5. Please refer to the attached chartlet for information on the coordinates of the channel limits and the new positions of the buoys marking the limits. The new channel limits and the survey report will be forwarded to the Hydrographer of the Royal Malaysian Navy and the Marine Department to facilitate the issuance of the relevant navigational chart corrections.

Thank you
