LIST AS ATTACHED

Y. Bhg. Datuk Seri /Datuk / Dato' / Sir / Madam,

PORT KLANG AUTHORITY GENERAL MANAGER'S CIRCULAR NO. 6/2017

IMPLEMENTATION OF PORT KLANG NET (eIMPORT DAN eEXPORT) INITIATIVE IN PORT KLANG

We refer to the above subject and Port Klang Authority General Manager's Circular No. 1/2017 dated 19 January 2017 and Circular No. 4/2017 dated 31 May 2017.

2. We wish to inform that Port Klang Authority (PKA) has taken the initiative to develop a centralized system which integrates the various online systems used in Port Klang. Three (3) modules have been launched and implemented successfully under Port Klang Net, namely the eRegistration, Vessel ID and Ship Call Number (SCN). These modules were implemented with effect from 1 January 2013.

3. The eImport and eExport modules were recently launched and live testing (pilot test) has been carried out since **1 March 2017**. Port Klang Authority is taking into consideration the feedback put forward by the industry players and finds that there are certain needs/requirements put forth by the industry that will be looked into under the enhancements on the eImport and eExport modules whilst we simultaneously resolve the interface / integration process with the Vendor (Service Provider) for Users with back-end systems. Port Klang Authority takes note on the importance of readiness of the industry players to understand and familiarize themselves with the eImport and eExport modules. This is to ensure that no hiccups arise once the modules are implemented live.

4. In line with this, Port Klang Authority intends to ensure the full participation of the entire industry in using the Port Klang Net system as a gateway to connect all logistics players. A holistic approach will be taken by continuing training programmes, upgrading the existing elmport and eXport modules and resolving the interface / integration process of Users with back-end systems. Therefore, this initiative is expected to take six (6) months to ensure that all issues are resolved and preparations are done through face-to-face interactions with all industry players to further understand and familiarize themselves with the system. At the same time, we intend to increase the number of pilot players and participation of users to test the performance of the system.

5. Therefore, Port Klang Authority wishes to inform that the implementation timeline of the elmport and eXport modules is **extended for six (6) months, up to 30 June 2018 and thereafter will be made mandatory.**

6. Further enquiries in regard to this matter can be directed to PKA's Planning and Development Department as follows:
