1. In recent years the number of vessels entering Port Klang has increased considerably. As a result, the existing port limits became congested especially at Pintu Gedong where ships had to anchor outside the port limits while awaiting berthing instructions.
2. Port Klang Authority applied to the Ministry of Transport to extend the port limits so as to provide sufficient space for vessels to anchor safely. Following the approval of the application, the new port limits for Port Klang were gazetted on January 25, 2012. (please refer to Appendix I)
3.
