Member Circular No. 053/2020

Date : 23rd March 2020

To : All SFFLA Members

Attn : General Manager / Operations Manager

Dear All,

RE PRESS STATEMENT ON LOGISTICS SERVICES DURING MOVEMENT CONTROL ORDER (MCO)

Please refer to Press Statement issued by FMFF. (attached 2 page)

SFFLA is in support of FMFF's stand to cease our logistics services.

SFFLA also understand that some members may have been appointed as logistics services providers for both the essential goods manufacturers and manufacturers of other goods who have been approved by MITI

We wish to advise that you have accepted their appointment of your company as their logistics services provider and you have done so of your own volition and at your own risks; as there are apparently many obstacles with the enforcement agencies.

Should you face any difficulties with the enforcement agencies during the performance of your duties as logistics services provider during MCO, your association may not be able to render any assistance to you.

Notwithstanding the above, SFFLA members are advised to stop their services and operations with effect from 24th march 2020 until further notice.
